Hiring Manager, Global Technology McDonald's Corporation

RE: Full Stack Engineer I – .NET / Azure

Dear Hiring Manager,

McDonald's digital transformation serves 65 million daily customers, and I am eager to help secure that experience as part of your Identity and Access Engineering team. With over **5 years of experience** and a soon-to-be-completed **MS in Computer Information Science**, I offer a blend of deep technical maturity and a "Level I" eagerness to innovate within your IAM ecosystem.

Why I am a strong fit for the Golden Arches:

- **Advanced .NET Expertise:** I have a proven track record of designing scalable applications using **C#, .NET Core, and ASP.NET Core**. Recently, I built an LLM-powered chatbot utilizing a **.NET backend**.
- **Cloud & Identity Security:** I am highly proficient in **Azure** services and have implemented robust security protocols including **OAuth 2.0, JWT, and Role-Based Access Control**.
- **Microservices at Scale:** At Imark Pvt. Ltd., I built **event-driven microservices** using Kafka and designed **SOA-based applications** skills critical for McDonald's high-throughput environment.
- **Agile & DevOps Focused:** I have automated **CI/CD pipelines** using **Azure DevOps** and Jenkins, ensuring reliable code delivery in fast-paced Agile environments.

Recognized as **"Star Performer of the Year"** in 2023, I am a problem-solver who thrives on complex technical challenges. I am excited to bring my expertise in distributed systems and secure coding to McDonald's Global Technology.

Thank you for your consideration. I look forward to discussing how I can contribute to your team's success.

Best regards,

Narayan Bhattarai
